- Plays music and audio advertising
- Fully automated - on/off, continuous play of music
- Capacity to interact - create, save and schedule play lists, control music schedule
- Advanced advertising capability
- Music cross-fades - avoiding silence between tracks
- Proprietary system - ensures full control over music and what your customers hear
- Compact unit - dimensions 132mm / 357mm / 448mm
- Screen, keyboard & mouse - optional (for interactivity)
- On-line support via dial-in service (dedicated phone line required)
- Easy connectivity to existing infrastructure (amps, speakers etc)
- For a full list of standard & advanced software features, see page 2

## MUSIC

- Extensive range of music to choose from
  - New music supplied on a monthly basis (via CD-ROM)
- For a detailed list of programs available, see ►►MUSIC PROGRAMS►►

## HARDWARE, INSTALLATION & LICENSING

At SBA, we understand the importance of offering a **total solution**... so whilst our focus is on music, we have a number of strategic partnerships that ensure we deliver you a complete music strategy. This includes everything from hardware (such as amplifiers and speakers), through to install requirements, and public performance licenses.

## SERVICE

SBA Music offers prompt and friendly customer service, 7 days a week.

## A TOTAL SOLUTION

To ensure you receive total satisfaction, our solution includes:

- AUDIOPLAY | SPX system
- Programmed music library
- Regular music updates
- A consultative approach

For more information, please contact one of our representatives today on 1800 025 687.

**IMPORTANT:** Business environments using music require Public Performance Licenses from APRA & PPCA. For more information see ►►LICENSING BODIES►►
